

BCP-165

Cylinder Boring Machine BCP-165 - 3.15 to 6.3 inches Industrial

IMPORTED MACHINES

Technical Specifications

TECHNICAL INFORMATION

Manufacturing	Imported
Machining Capacity	Ø3.15 to Ø6.50 in
Transmission	via gears
Max. Cutting Capacity at Diameter	0.04 in
Rotation Speeds	200 - 300 RPM
Maximum Depth	11.81 in
Tool Sharpener with Stone	not included
Approximate Net Weight	187.4 lbs

STANDARD ACCESSORIES

- 1 set of cutting tools
- 1 micrometer for diameter reading
- 1 tool measuring device
- 1 set of centering pins

Specifications subject to change without notice. Some capacities listed may require optional accessories. Confirm exact dimensions during quotation.

BCP-165 cylinder boring machine for precise machining of 3.15 to 6.3 inch (Ø80 to Ø160mm) cylinders. Imported equipment ideal for engine shops and automotive industries requiring precision
